COMPETITOR RESEARCH

INTEGRA HR

- Strong for small businesses and non-profits.
- Their weakness is a lack of depth and pricing transparency.

DALE CARNEGIE

- Best for larger organizations or leadership-focused roles.
- Weaknesses include generalized workshops/sessions and expensive pricing.

MICRO KNOWLEDGE

- Best for skill-specific/technical training.
- Weaknesses include no in-person session offerings and limited session variety.

WEBSITE CHANGES

Service Page Optimization & Package Implementation

Legacy State (The "Before")

- **Static Offerings:**
  Services were listed as simple bullet points with "à la carte" or "long-term" options.
- **Limited Hierarchy:**
  A vertical layout that required excessive scrolling and lacked clear visual distinction between business areas.
- **Pricing Ambiguity:**
  No immediate pricing visibility, requiring potential leads to "Sign Up" before understanding the value proposition.

Enhanced State (The "After")

- **Strategic Card Layout:**
  Implemented a 4-pillar grid (Career, Strategic Leadership, Project Management, and Finance) to allow for instant navigation.
- **Tiered Pricing Packages:**
  Integrated "Starting at $99" anchors for every service area to drive immediate conversion.
- **Interactive Call-to-Action:**
  Added "View Packages" buttons to each card, creating a seamless funnel to the validated pricing tiers

→ The transition from a text-heavy list to a modular, package-based system aligns Tempo Training with industry leaders
